### Materi 3 : Mengedit Footer

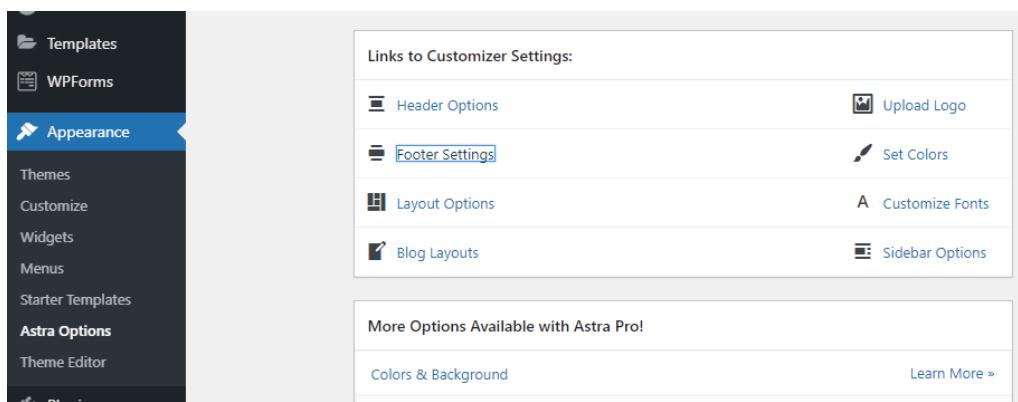

Yang paling terasa berbeda adalah di materi mengedit footer. Ini terjadi perubahan yang tadinya mengedit menggunakan elementor sekarang tema astra memasukan untuk edit footer pada customize temanya.

Oke supaya gak bingung silahkan disimak tutorial bagaimana cara mengedit footer di tema astra ketika menggunakan WP versi 5.8.

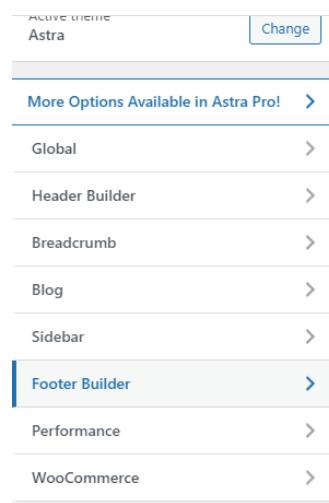

- Silahkan masuk ke dasbor admin website → **Appearance → Astra Options**

- Scroll ke bawah pada menu **Link to Customizer Settings** pilih **Footer Settings**

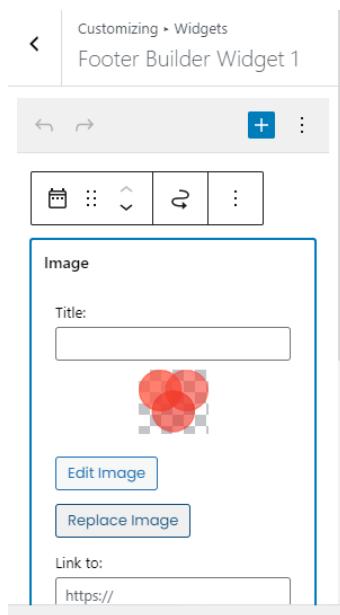

- Selanjutnya akan kita akan dibawa ke **Customize Tema → Pilih Footer Builder**

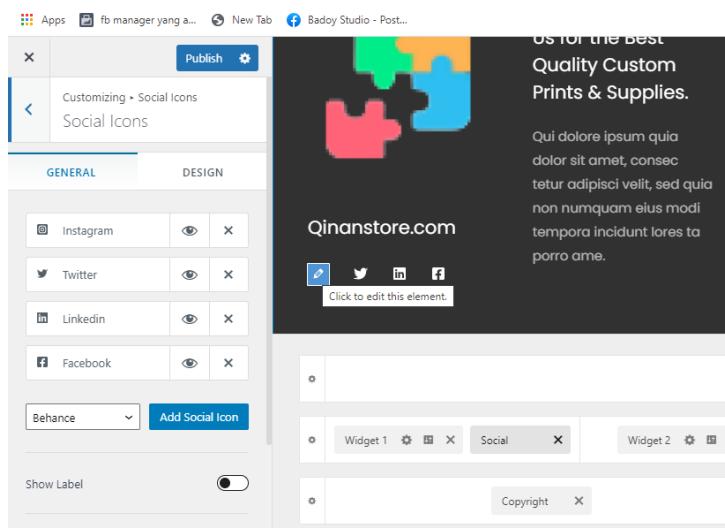

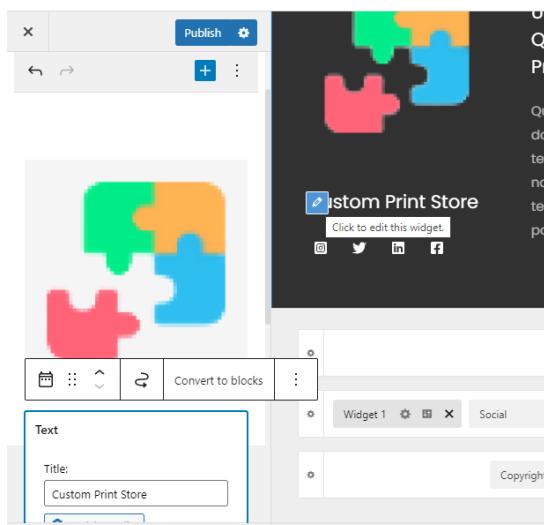

The screenshot shows the 'Customize Tema' interface for the 'Astra' theme. On the left, a sidebar lists various theme options: 'Global', 'Header Builder', 'Breadcrumb', 'Blog', 'Sidebar', 'Footer Builder' (which is selected and highlighted in blue), 'Performance', and 'WooCommerce'. The main content area displays a dark-themed footer section for 'Custom Print Store'. The footer includes a logo (two overlapping red circles), a title 'Custom Print Store', social media icons (Instagram, Twitter, LinkedIn, Facebook), a text block 'Get in Touch with Us for the Best Quality Custom Prints & Supplies.', and a 'Quick Links' section with links to 'Know More About Us', 'Visit Store', and 'Let's Connect'. Below the footer content, there is placeholder text: 'Qui dolore ipsum quia dolor sit amet, consec tetur adipisci velit, sed quia non numquam eius modi tempora incidunt lores ta porro ame.'

- Untuk mengedit bagian-bagian footer, caranya sangat gampang sekali. Kita tinggal arahkan cursor ke bagian yang mau diubah. Misal kita arahkan ke bagian logo nanti akan ada icon pen tinggal klik tinggal ubah logonya.

The screenshot shows the 'Customizing > Widgets' section for 'Footer Builder Widget 1'. On the left, a sidebar shows 'Image' settings with a preview of a red logo, 'Edit Image' and 'Replace Image' buttons, and a 'Link to:' field with the URL 'https://'. The main content area shows the footer design with the red logo, social media icons, and text. Below the footer, the 'Widget 1' section is visible, containing 'Widget 1', 'Social', and 'Widget 2'.

- Begitu juga dengan bagian yang lainnya. Seperti edit icon medsos caranya sama saja.

- Ingat, setiap selesai mengedit jangan lupa harus klik **Publish**.

**Jika ada kendala saat ingin mengubah judul menu Quick Links dan Importan Links tetap tidak bisa diubah padahal sudah diubah dan klik publish, caranya yaitu :**

- **Install terlebih dahulu plugin classic widget**
- **Jika sudah diinstall dan diaktifkan, silahkan pergi ke Appearance → Widget → Cari bagian footer builder widget 3 dan 4. Ubah menjadi title yang sesuai kita inginkan dan klik Saved.**

**Available Widgets**

To activate a widget drag it to a sidebar or click on it. To deactivate a widget and delete its settings, drag it back.
